OUR BOOK

Florbela Espanca, Selected Poems

by Florbela Espanca

Translated by Billie J. Maciunas

The first collection of Florbela Espanca's (1894–1930) poetry to appear in English, *Our Book* is a song of the self—a proclamation of love, torment, and erotic exaltation in sonnet form—all intricately linked to the poet's life, mythologized as it transgressed the lot of women in Portuguese society.

**BEYOND EXTREMISM, HATRED, AND VIOLENCE***Toward a More Peaceful World*by **R. E. Markham**

What can be done to minimize the dualistic “you’re wrong/I’m right” attitudes of extremists on the left and the right as they seek to preserve their points of view? The solution is not some new religious or political ideology. Instead, these attitudes can be undermined by accessing a deep, mysterious, and indefinable dimension of reality that transcends conventional points of view.

“Acknowledgement of this deeper dimension reveals our hubris and fallibility, and allows us to connect more authentically with others.” — *IndieReview*

“Plenty of substance in these pages. A wide-ranging, thought provoking look at faith and the nature of reality.” — *Kirkus Review*.

**REGIONS OF THE MIND**

Commonsense Solutions to Philosophical Problems

by G.S. Cobau

This book began as a search for philosophical truth, and it covers a lot of ground. Along the way, I discovered that materialism is factually wrong, and I provide arguments for why this is so. We need a philosophy that is more realistic, rational, and balanced, one that recognizes the importance of conscious experience. This book goes a long way toward that goal.
