Biography

Clear It with Sid: Sidney R. Yates and Fifty Years of Presidents, Pragmatism, and Public Service
Michael C. Dorf and George Van Deusen
“A bracing and insightful read.” —Slate explains Ghandi’s use of fasting as a political means to inspire and spiritual health. Above all, this book is the most important of the publications focusing on this turbulent period of American political and military history.”
—Howard Ball, author of Unnecessary Truth: How Food Companies Skew the Science of What We Eat

Colin Powell: Imperfect Patriot
Jeffrey J. Matthews
“At its base is a very well written story about Colin Powell as fallible everyman. It is an almost existential portrait of the human condition. We all make choices every day; some are good, but some are grave errors in judgment that can have disastrous consequences for a family or for a nation. In my opinion, this book is the most important of the publications focusing on this turbulent period of American political and military history.”
—Rick Kogan, Chicago Tribune

Andrew E. Stoner
As the acclaimed author of The Band Played On, Randy Shils became the country’s most recognized voice on the HIV/AIDS epidemic.

Applied Mindfulness: Approaches in Mental Health for Children and Adolescents
Victor G. Carrión, M.D., and John Rettig, Ph.D.

What You Take with You: Wildfire, Family, and the Road Home

Theresa Greenwood

Four years after Therese Greenwood and her husband moved to Fort McMurray, Alberta, their new community was devastated by one of the worst wildfires in Canadian history. As the flames approached, they had only minutes to pack, narrowly escaping a fire that would rage for weeks, burn more than 85,000 hectares and force 80,000 people to flee. This skillfully told first-person account is more than a disaster narrative; her portrayal of how people behave in an emergency and how a community comes together is uplifting.

Robert Icenhauer-Ramirez’s account of Jefferson Davis’ treason trial—which ought to have been ‘the trial of the century’—cannot be more absorbing. A Civil War story as any battlefield narrative...Thorough in his judgments about the role of the Lost Cause, the 14th Amendment, and military tribunals, he gives us an enthralling rendering of American law at its best and its worst.”—Allen C. Appel: A Canadian in the French Foreign Legion
Joel Struthers

“In Appel, Joel Struthers has illustrated a soldier’s life on and off duty through his vast experience in diverse training activities and operations. Those with a military background will find this a fascinating story, laced with humour, and told through the eyes of a professional soldier in a renowned military organization, the French Foreign Legion. Those who have not experienced military life will be equally fascinated with a soldier’s insights into the dangerous and demanding profession of arms.”

Peace, War, and Liberty: Understanding U.S. Foreign Policy
Christopher A. Preble

In this evenhanded but unassuming commentary, Christopher A. Preble (vice president for defense and foreign policy studies at the Cato Institute) considers the past, present, and future of United States foreign policy: why past policy makers made certain choices, the consequences of those choices, and how the world might look if America chose a different future path. In its dealings with the broader world, has the United States promoted human liberty? Would America—and the world—be freer if America’s foreign policy were more restrained?

Jews include that they vote at unusually high levels, that they’re liberal, that they vote for Democratic candidates without regard to their self-interest, and that Israel is their most important issue. Not only are all of those claims wrong, but they obscure aspects of Jews’ voting behavior that are much more interesting. This book uses extensive data to show that everything we think we know about the voting behavior of American Jews is wrong.
